KEY PROJECTS

Image gallery with PixabayAPI:

A front end application that allows its user to search an enormous amount of images. The user can search any image by typing in a desired keyword like 'cats' or 'cars' and then get a list of images present to the user as a card with image and data about that image. Filter those search results by

Recipe application:

allows its user to search over a million of different recipes. Add new
recipes, filter recipes by keyword like ingredient or find specific recipe
with a search bar. Users also have the option of creating their own recipe.
This application is made with MVC design pattern.

Automatic watering system for garden:

is irrigation system that opens the valve and discharges water at
a predetermined time. The first version of this system was
made in 2020 and upgraded version is still used today.
